

Product Specification

Revaluation terminal with touchscreen panel PC

The Gladstone OnRecord revaluation terminal comes in a tough yet stylish design which can be used in a variety of locations within the facility. The durable steel construction is wall-mounted for ease of operation and to maximise space.

The unit incorporates a leading edge 15" touchscreen panel PC with an internal amplifier and easily accessible ports. Customers can choose between the latest biometric reader technology and a contactless smart card reader that is compatible with all MIFARE™ RFID card types.

High security cash handling and rigorous banknote validation are fitted as standard. The operating system is built on the MS Windows™ platform to deliver a truly user-friendly experience.

Features

- Tough and slim-line design
- Total flexibility in location and functionality
- Integrated touchscreen panel PC
- Smart card reader and biometric reader compatible
- Industry-standard cash handling and banknote validation
- User-friendly operating system built on MS Windows™

Specification

Revaluation terminal
